DETAILED ACTION

This Office Action is in response to the Amendment filed on 03 January 2005.

Claim 21 has been amended. Overall, claims 1-21 are pending in this application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 21 is rejected under 35 U.S.C. 102(b) as being anticipated by Absenger (PN 5,540,207).

Hermesen discloses a control shaft (See Figure 2 (20)) assembly pivotable relative to a pivot axis; a body (See Figure 2 (5)) pivotally disposed on said at least one control shaft assembly, said body including an input cam follower (See Figure 2 (26)) and at least one output cam surface (See Figure 2 (5), (25)), said input cam follower configured for engaging an input (See Figure 2 (2)) cam lobe, said at least one output cam surface configured for engaging a corresponding output cam follower (See Figure 2 (13)); wherein said at least one output cam surface comprises a base circle portion and a lift portion (See Figure 2 (5)); and a spring (See Figure 2 (22)) engaging said body for biasing said input cam follower into engagement with the input cam lobe.

Allowable Subject Matter

Claims 1-20 allowed.

Response to Arguments

Applicant's arguments with respect to claim 21 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Curtis (PN 6,273,040), Kampichler et al. (PN 5,957,673) disclose similar valve actuator mechanisms.
